

STAVROPOL REGIONAL PSYCHOANALYTICAL ASSOCIATION  
SOUTH-RUSSIAN PSYCHOANALYTICAL SOCIETY  
10<sup>th</sup> Annual Conference  
TRANSFORMATION OF SEXUALITY  
Drive. Attachment. Link.  
May 17-18, 2014

## Stavropol, Russia

Dear Colleagues,

On this Jubilee year for the Conference we are turning to the origins of the human mental life, its development, shaping, and functioning; using the language of theory and practice, using the language of life.

No matter how many times the psychoanalytical ideas on sexuality could change, just like its interpretation so needed and useful for understanding human mental functioning, there is always one thing that remains unchanged – its unprecedented role in terms of living, thinking, loving<sup>1</sup>.

When speaking of infantile sexuality's transformation into that of adults, we perhaps should also think of the fact that before entering adult sexual relationships a child fantasizes about them a lot. "Sexuality is a substantial part of the personal world of fantasies and the unconscious, while a larger part of our fantasy world is sexual" (L. Klockars). And if adults allow the child enough space to live his or her fantasies just like fantasies and not real plans in relation to his/her father or mother, for example, then the child's adult sexuality will stretch its wings freely.

At this Conference we would like to leave enough space for unfolding fantasies, including those involving sexuality.

*Svetlana Abramova, Oksana Tatarenko  
Leaders, Organizing Committee*
